Dear Member of IAU/Commission 16:

Commission 16 is alive and well ! Below are a few news items we wish to share with you.

During the next triennium, we hope to continue sending regular news bulletins to keep you aware of Commission activities and warn you about important IAU deadlines.

***** NEWS ***** NEWS ***** NEWS ***** NEWS ***** NEWS ***** NEWS *****

- * The Commission website has been relocated and can now be found at:
< <http://www.iaa.csic.es/IAUComm16> >
- * The Minutes of the Business Meeting held during the General Assembly in Prague has been posted on the website ; see:
< http://www.iaa.es/IAUComm16/Com16_minutes06.pdf >
- * We are happy to welcome 29 new members into the Commission, which raises our total membership to 271. We need to convince more and more planetary scientists, especially young ones, that participating in the IAU activities is important. We will be repeating this message again and again as the next deadline for membership application gets nearer and nearer...
- * Reminder: The IAU is soliciting proposals for IAU Symposia in 2008.
For those interested, please check the web page: < <http://solarphys.uio.no/IAU/> >
Instructions and guidelines are available at: < http://www.iau.org/Submission_of_Proposals.113.0.html >
Proposals are due before December 1, 2006.

Best regards,
Régis Courtin (Comm. Pdt) and the Organizing Committee

Régis Courtin
